### District Long Range Vision

Our vision is that all Oakland Unified School District graduates are prepared to succeed in college and the workforce. This preparation includes meeting the eligibility requirements for UC and CSU, engaging in quality work based learning experiences and acquiring technical knowledge related to one of California's 15 industry pathways. Our goals, distilled from the many discussions of the College and Career Readiness Planning Council, are as follows:

1. Develop a shared vision and commitment for Linked Learning as an approach to improve the success of OUSD graduates;
2. Increase the amount of quality pathway experiences available to OUSD students;
3. Increase the number of students meeting UC and CSU eligibility requirements;
4. Create quality work-based learning and career exploration experiences for all students;
- and 5. Support all students with the interventions, counseling and programs they need in order to be successful
