

## Pathway Leadership Development Series

### Desired Outcomes

1. Build capacity of site and district leaders to implement high-quality pathway programs within a sustainable system of multiple pathways
2. Nurture the formation of professional learning communities among the districts and sites, and establish common need for continued group learning
3. Ensure clarity and understanding of multiple pathways among all participants, and promote vertical vision and collaboration within districts
4. Deepen districts' commitment to developing systems of multiple pathways
