

Costs, Money, and Resources in Pathways

1. What additional *funding* do you anticipate needing to develop your pathway? What are the potential sources for this funding?
2. What additional *resources* besides funding do you anticipate needing to develop your pathway?
3. What simple resources do you now have in place? What simple resources are ineffective because of failure to recognize the importance of compound resources?
4. What complex resources do you have, and which do you lack?
5. What abstract resources do you have, and which do you lack?
6. What special efforts is your school making to ensure the success of African American, Latino, and other racial minority students?
