

Teacher Cohort Overview

Work-based Learning, Instruction Strategies and Support Services

7/31/09 Friday 1:00 p.m.

Expected Outcome: Pathway Team Members

- Determine their needs for professional development or technical assistance.
- Share successful instructional practices that support project-based and authentic activities.
- Explore ways that 21st Century Skills can be embedded and work-based learning experiences connected to coursework.

Activities

1. Use the Worksheet #3 to generate some ideas for addressing the motivation preferences of students when designing lessons and projects.
2. Use the Pyramid of Interventions handout to determine what you are successfully providing for students and what you might want to suggest to the team to further support student success.
3. Review the 21st Century Skill handout to share how you are currently addressing them in instruction and determine new ways to incorporate them.
4. Determine what areas of professional development and technical assistance might be desirable.
